Josh -

Thank you for taking time to speak with Kathie and outline the necessary steps for response. Attached is our technical report / response pertaining to the original order related to Silver Exploration Company (S3950).

I trust this letter is sufficient information and response to comply with the order.

Please confirm and again, thank you for your guidance.

Regards,

Scot

**Subject:** Silver Exploration Order and NOV

Hi Kathie,

I have attached the Notice of Violation, which also has the original Order attached to it sent in December. Please respond with the required information as soon as possible. Our main concerns are if the operations currently or historically have used sumps, ponds, or pits to store fluids associated with oil and gas activity, and also how you dispose of and manage produced water.

Please let me know if you have any additional questions.

Thank,

Josh
